Professional Summary

Recent MSc Computer Science graduate with a strong foundation in Python, C, C++ and Java. Experienced in web application development, data analysis and ethical hacking through academic projects and internships. Seeking an opportunity to leverage technical expertise in a web developer role or data analyst role.

Technical Skills

- **Programming Languages:** Java, Python, C++, R.
- **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Node.js, Tailwind CSS.
- **Database Management:** MySQL, MongoDB.
- **Tools & Platforms:** Git, VS Code, Google Colab, AWS.

Education

Master of Science in Computer Science **09/2025 – Present**
St. Xavier's College (Autonomous)

Bachelor of Science in Computer Science **08/2022 – 08/2025**
Midnapore College (Autonomous), Vidyasagar University CGPA: 6.64/10.0

Projects

SynthEthic – Privacy-Preserving Synthetic Data Generator

- *Technologies Used: Python, PyTorch, GANs, FastAPI, PostgreSQL, MinIO/S3, React.js, Tailwind CSS, Recharts*
- Full-stack SaaS that uses GANs to turn uploaded noise-encoded datasets into a synthetic twin with the same statistical properties and no real user data, supporting GDPR/HIPAA-safe testing and AI training. Includes a secure API, a data pipeline and a dashboard showing Privacy and Utility scores.

Multi-Tenant SaaS Dashboard with RBAC & Audit Logs

- *Technologies Used: TypeScript, React.js, Django REST Framework, PostgreSQL, Tailwind CSS*
- Responsive enterprise web app with role-based access control for multiple user roles, a tamper-proof audit log recording every change with user, timestamp and before/after values, and PDF/CSV export of compliance reports.

ERP Data Sync & Calculation Engine

- *Technologies Used: Python, Django REST Framework, Celery, Redis, PostgreSQL*
- Backend system that syncs simulated ERP (SAP-style) utility and HR data via scheduled Celery tasks and runs a deterministic calculation engine (e.g. Scope 1 & 2 emissions) with user-adjustable formulas and emission factors.

Internship Experience

Software Development Intern (Intern Role) **06/2025 - 08/2025**
TCS iON (Tata Consultancy Services), Remote (Online)

- Contributed to professional skills development by completing modules on communication, collaboration, business etiquette, financial and digital literacy, IT foundations, and the basics of Artificial Intelligence using online learning platforms and digital resources.
- Implemented effective communication and presentation techniques, resulting in improved clarity and impact in workplace interactions and presentations.
- Collaborated within an online cohort of 30+ learners to discuss case studies, solve business scenarios, and complete digital assignments, culminating in a verifiable certificate of achievement and increased job readiness.

Certifications

- Cyber Job Simulation from Deloitte (08/2025)
- Data Analytics from Deloitte (08/2025)
- Introduction to Data Science from Commonwealth Bank (08/2025)
- Gen AI Powered Data Analytics from Tata (08/2025)
